Dr Julian De Silva

in partnership with TATLER ADDRESS BOOK

The Centre for Advanced Facial Cosmetic & Plastic Surgery, 23 Harley Street London, W1G 9QN, United Kingdom

☎ +44 (0) 20 8748 2860

Dr Julian De Silva is a specialist surgeon in facial cosmetic and plastic surgery and completes no body surgery. He has pioneered the use of scarless and modern plastic surgery techniques in the UK, application of facial surgery focused on natural results and faster healing. Trained in London as an ophthalmic micro-surgeon, he has expanded his skills in facial plastic surgery in world-renowned centres of plastic surgery in New York and Los Angeles and specialises in face and neck lift surgery, blepharoplasty and rhinoplasty only.

“My focus has and always will be to be the very best at what I do, to continually innovate to provide world-class leadership to all my team, all my patients and all my associates”, says Dr De Silva. The mission is to help every patient be the very best version of themselves with premium care and services.

Dr De Silva believes that procedures on the face should be in accordance with harmony and balance which requires artistic interpretation of beauty. With over 10-years of surgical experience, Dr De Silva continues to teach nationally and internationally and is a keen advocate of improving safety and quality of care and 20-30% of his patients are revision surgeries performed by other surgeons. Dr De Silva developed a state-of-the-art hospital facility on the renowned Harley Street, providing customised services for patients, enabling them to have specialist facial procedures avoiding general hospital care. Dr De Silva's accomplishments include the gold medal for research from the Imperial College and masters with distinction, patents, books, journals and pioneered research on the use of golden ratio in facial mapping to enhance beauty.
